DC SHORT-TERM RENTAL APP DATA PACK	
Snapshot	2026-09-19
Source	Inside Airbnb Washington, D.C.
Source URL	https://data.insideairbnb.com/united-states/dc/washington-dc/2026-09-19/visualisations/listings.csv
Imported raw listing rows	6906
Imported columns	19
Neighborhood groups	39
Data status	Raw summary listings CSV imported; detailed listings/calendar/reviews/geographic files not included.
CRITICAL: advertised price	Price is a listing price, not realized ADR or actual paid nightly rate.
CRITICAL: availability	availability_365 is days listed as available; 365 minus availability_365 does NOT equal booked nights.
CRITICAL: occupancy	Do NOT compute actual occupancy or revenue from this dataset alone.
CRITICAL: missing prices	913
CRITICAL: license	The license string is self-reported listing data; it is NOT a verification of current legal status.
Location	Approximate coordinates in the source; do not assume exact street address.
Short-stay	Use minimum_nights to avoid mixing 30+-night listings with typical short stays.
Pricing UI	Filter neighborhood + room_type + minimum_nights and compare median prices of suitable comps.
Map UI	Use latitude and longitude; make listing URL using https://www.airbnb.com/rooms/{id}.
Neighborhood summary	Computed from all records using only positive numeric prices.
Commercial use	Check Inside Airbnb data license, attribution terms and applicable platform terms before public redistribution.
